

Die vielen Pöstchen des Dr. Pachauri! Oder, wie die Klimahierarchie funktioniert

geschrieben von Bachmann | 30. März 2010

Da das IPCC keine „Entwarnung“ gibt, wollen wir nun aber wissen, was ist der Chef des IPCC, der Präsident des Weltklimarates, für ein Mensch. Ist er evtl. nur ein Objekt, nur ein nützlicher Idiot, der Weisungen folgt, ist er ein Einzelkämpfer, der seinen Intuitionen folgt, oder mangelt es ihm gar an Zeit oder Intelligenz, sich selbst die logische Frage zu stellen: *„Ist dein Institut, das IPCC, nach den Bekanntgaben durch Prof. Jones vom CRU, dass es keine signifikante Erderwärmung gibt, nicht überflüssig wie ein Kropf? Ist es nicht Zeit, die Koffer zu packen?“*

Ich möchte Sie nicht auf die Folter spannen. Man wird fündig, wenn man feststellt: Dieser Mann, der Chef des IPCC, der Boss des Weltklimas, der Eisenbahningenieur und Prof. h.c. Rajendra Pachauri ist hoffnungslos überlastet.

Kontrollieren Sie dies über den folgenden Link (siehe auch im Anhang alle Ämter und Mitgliedschaften):

<http://www.rkpachauri.org/membership.php>

Über 100 „**memberships and affiliations**“ bezeugen, dass der Mann hoffnungslos überfordert ist. Sorgen wir für seine Erholung und schicken wir ihn in seinen verdienten Ruhestand. Beantragen wir seinen „Abgang“. Wer über 100 Firmen und Organisationen zu managen und zu beobachten hat, sollte nicht noch als Nebenbeschäftigung eine Präsidenschaft über das Weltklimageschehen innehaben. Der Mann muss weg. Am besten zusammen mit seinem absolut überflüssigen Institut. Nur, dieses zu erreichen ist schwer. Es ist sogar unmöglich. Weshalb?

Pachauri hat viele Freunde. Überwiegend Manager, die am Drehen des Weltrades beteiligt sind. Einige davon treffen sich vielleicht derzeit in London, um zu retten was zu retten ist, wie der Guardian als einziges Medium unter der treffenden Überschrift "Die Billionen Dollarfrage: Wer führt jetzt die Klimaschlacht" berichtet. Das sind alles Menschen, die ebenso viele Beteiligungen an gleichen oder ähnlichen Organisationen innehaben, wie Pachauri.

Da ist z.B. sein Freund Al Gore. Miterfinder der CO₂-Zertifikate. An jeder Bewegung eines jeden Zertifikates ist er beteiligt. Er hat fast ebenso viele Verpflichtungen, seitwärts des Einsammelns von Geld für seine Zertifikate, wie Pachauri. So kommt man zu Reichtum. Da ist zum anderen der langjährige Freund Maurice Strong, Haus-und Hofgeist der

Rockefellers. Deswegen wurde er auch von diesen als Präsident der UNEP, des Umweltarmes der UNO eingesetzt. Strong wiederum berief über seine Freundschaft mit Bert Bolin, diesen zum 1. Präsidenten des IPCC, nachdem er zum Miterfinder des IPCC avancierte. Die eben genannten Personen, wie auch andere „einflussreiche“ Menschen, sind wiederum mit den berühmtesten „Klimaforschern“ dieser Erde befreundet oder verwandt.

Diese relativ wenigen Menschen sind Mitglieder einer Gruppe, die ungeheuren Einfluss auf die entscheidenden wirtschaftspolitischen Vorgänge dieser Erde hat. Egal, ob es Anweisungen an die Weltgesundheitsbehörde (WHO) sind, zur Erprobung der Effektivität der WHO eine Schweinepest als Pandemie auszurufen, oder eine Bankenkrise zu starten, oder die Nominierung des nächsten US-Präsidenten zu bestimmen.

Wegen dieser unabänderlichen Verhältnisse ist es schwierig, sowohl Pachauri, als auch sein Institut, das IPCC loszuwerden. Es wird nach wie vor für weitere lang anhaltende, weltweite, gigantische Geschäfte benötigt. Dazu wurde es ja auch durch die einflussreichsten und mächtigsten Menschen dieser Erde geschaffen.

Ein Kommentar des IPCC Gründungs-Zeitzeugen Hartmut Bachmann EIKE

Sehen Sie hier die Ämter und Verpflichtungen des Eisenbahningenieurs und IPCC Chairmans Dr. R. Pachauri

Member, Editorial Advisory Board, India in Global Affairs (IGA), Delhi, Sakaal Group of Publications, Pune

Member, Editorial Advisory Board, Chinadialogue(London)

Member, Advisory Panel, Human Development Report 2007, United Nations Development Programme (UNDP)

Member, Editorial Board, Environmental Research Letters, Institute of Physics Publishing, University of California.
