

Register now! 15th International EIKE Climate and Energy Conference near Merseburg

geschrieben von AR Göhring | 5. November 2022

It's that time again – EIKE is hosting the annual conference on energy and climate issues!

This year, on 25 and 26 November, we are in a centre about 15 kilometres south of Halle an der Saale – in a rural setting near Merseburg, the town where German literary history began. The region is known as a lignite mining landscape and for the Nebra Sky Disk.

Here is the link to the registration
